SC610 External SSD

The external SSD has shrunk! The SC610 flash drive features USB 3.2 Gen2 transmission speed with read/write as high as 550/500MB per second. Its Type-A interface is compatible with a variety of computers.

Powerful Storage

It is hard to imagine that a SSD can be so compact! The SC610's USB 3.2 Gen2 transmission interface has a bandwidth of up to 10Gb per second. So, it only takes about 20 seconds to completely transfer a 10GB 4K high-definition video* file and it is backward compatible with USB 2.0 devices.

*This transmission rate is a theoretical value, actual performance depends on environment and conditions of use.

LEVEL UP to Breakneck Speeds

The SC610 has a transmission speed of up to 550/500MB per second, which is 5 times faster than regular flash drives. It outputs the same performance as an SSD. Just plug and play, and it can quickly read and write all types of large-capacity and small files. Its compact case is loaded with outstanding capabilities!
